February 16, 2021

Andy Peters
Operation Supervisor

LETTER OF COMMENDATION

Dear Mr. Peters:

As the City of Molalla is reopening from the February 12 – 15, 2021 ice storm that left us without power for upwards of three days, I am moved as to the effort you made as our Operations Supervisor. In no way do I believe that you operated alone, I agree that we have a great crew. However, you were the glue that kept operations moving in a direction where most people do not see your effort. I fully appreciate what you were able to accomplish.

The leadership you provided to your crew and others was nothing short of significant. You accomplished this in a situation where communication was very limited and access to your own supervisor was not available or delayed. I believe that our accomplishments with our treatment facilities and mustering our crews leads me back to the example you have set.

I am grateful for your efforts of exemplary and selfless service to a hopefully grateful and deserving community.

Sincerely,

Dan Huff
City Manager
